May 5, 2013

To: Gregg Fortner / Director of Public Housing and Community Development

Who signed this document, Nadia Rodriguez (former Miami-Dade County employee e# 305998), is requesting a disciplinary action to Leshia E. Elie (Regional Manager from the Centralized Maintenance Crew in Public Housing and Community Development) for repeated harassment against me.

Leshia E. Elie unfairly fired me from my job this last January 9th 2013. Her decision was base on lies; for example, that I didn't comply with the assignment and that I was disrespectful with her. However, the manager Elie doesn't have any proof that confirms her accusations as indicating on the decision made by the Department of Economic Opportunity (DEO) under the "Decision of Appeals Referee" (see attached #1).

The "Decision of Appeals Referee" was originated after a phone hearing in which Elie, two other officers from PHCD and I previously submitted documents as evidence. During the hearing, versions from all of us were heard and recorded.

As you can see on the attached #1 under the "Decision of Appeals Referee" stating that: ***"The claimant (Nadia Rodriguez) did not intentionally violate any know rules. It is held that the claimant was discharged for reasons that not meet the statutory definition of misconduct connected with the work"*** -the decision clearly stating- ***"The claimant acted reasonably as an assistant manager ... the claimant was trying to perform the job efficiently and properly"*** -and later stating- ***"the hearing officer finds the testimony of the claimant to be more credible"***.

Therefore, I was unfairly fired from my job. This is causing me economical problems because now I cannot cover the expenses of my son's college education;

I'm also at risk of loosing my house, which can leave my family and I as homeless.

But Leshia E. Elie harassment against me neither stopped on the phone hearing nor before a DEO's officer as confirmed below.

When it was my turn to give my testimony before the hearing officer, the manager Elie called me from her personal cell phone 17 times to the phone I was talking. Elie intentions were to confuse me while I was giving my testimony to sabotage. The wickedness of Leshia E. Elie is demonstrated when she made 17 calls blocking her cell phone number and therefore her identity, but she didn't know that phones number are never block to the phone provider for dirty tricks like the ones from manager Elie. So, when I got the report from my phone provider it appears that the 17 calls were made from cell number 305-905-4774 (see attached #2) which I later searched on the 411 internet service and belongs to Leshia E. Elie as confirmed in attached # 3.

The premeditated and repeated harassment from the manager Elie against me has come to the point that she can't even stop before an officer from the DEO is impose to ask: What didn't she do against me while I was working under her management?

For all the above and the attached confirmed evidence, I ask you to apply a disciplinary action to Regional Manager Leshia E. Elie according to law.

For the dangers of the events, for feeling harassed in every step I take, I hope my request is answer and taking care as fast as possible.

Respectfully,

Nadia Rodriguez
